FRESHJET 3

COMMERCIAL GRADE ROOFTOP AIR CONDITIONER

UNIQUE COIL DESIGN

Evaporator and Condenser coils e-coated for enhanced durability

INCREASED COOLING

Unique design delivers powerful performance and uniform temperature

QUIET OPERATION

Produces less perceived noise than its predecessors

REDUCED WEIGHT, IMPROVED COMPONENTS QUIET OPERATION, INNOVATIVE BLOWER SYSTEM BACKWARDS COMPATIBLE, FIELD REPLACEABLE

The FreshJet 3 Commercial Grade rooftop air conditioner improves the way professionals and boaters cool their spaces, so they can cool down quickly—and stay comfortable. The innovative blower system quietly moves an average of 280 cubic feet of cool air per minute, providing a faster cooldown in hot ambient temperatures. With 13% more cooling power, users can focus on their time on the water or at work—without the heat.

EPP foam insulation on the inside of the unit reduces weight, provides protection, and reduces noise for more restful sleep and quieter operation. The advanced design and state-of-the-art materials offer one of the lightest weight rooftop air conditioners available for marine and commercial use. The composite base pan and shroud not only look modern but also save weight, allowing for easy installation and a lighter load for the journey ahead.

Now upgraded with marine-grade durability, the FreshJet 3 Commercial Grade features corrosion-resistant hardware and coated coils to withstand salt air and harsh environments. Built for reliability and performance, it's the ideal solution for vessels, mobile workspaces, and commercial applications where cooling power and rugged construction matter most.

KEY BENEFITS

- Cooling Capacity: 15,000 BTU / 4396W
- 13% higher cooling capacity compared to select rooftop air conditioners in the market today
- 15% higher airflow than select rooftop air conditioners on the market today
- 4dB less noise than select rooftop air conditioners on the market today
- 14% lighter than previous Dometic Brisk II air conditioner models
- Backwards compatible with existing Dometic and competitor air returns
- Ducted and non-ducted applications

SCOPE OF DELIVERY

- 1 air conditioner
- 1 warranty card
- 1 registration card

PRODUCT DESCRIPTION

Air conditioner, ducted or non-ducted application, Mechanical Air Distribution Box or control kit and Return Air Grille required

TECHNICAL DATA AIR CONDITIONER	SKU 9610007866 WHITE 15,000 BTU	SKU 9610007865 BLACK 15,000 BTU
Dimensions	27.6" W x 29.6" D x 14.4" H 702mm x 753mm x 351mm	27.6" W x 29.6" D x 14.4" H 702mm x 753mm x 351mm
Net Weight	66 lbs / 30 kg	66 lbs / 30 kg
Input Voltage	(AC) 115 V	(AC) 115 V
Input Frequency	60 Hz	60 Hz
Cooling Capacity (ISO 5151)	15,000 BTU	15,000 BTU
Power Consumption (ISO 5151)	1652 W	1652 W
Required AC Circuit Protection	20 Amp	20 Amp
Refrigerant	R-32	R-32
Certification	CSA	CSA
